SEAWEED SUPPLEMENT

The Andersons Seaweed Supplement is a highly concentrated liquid supplement for warm and cool season lawns. This product is designed to be applied ahead of increasing air temperatures to help support lawns through summer stress. The Andersons Seaweed Supplement also promotes root growth and increases soil microbial activity.

CONTAINS NON-PLANT FOOD INGREDIENTS

Guaranteed Analysis-Soil Amending Ingredients

50.00%	Ascophyllum Nodosum Extract (derived from seaweed)
2.00%	Fulvic Acids (derived from leonardite)
48.00%	Total Other Ingredients

Purpose Statement: Fulvic acid is readily absorbed by leaves and roots. Enhances absorption of nutrients and enhances efficiency of plant metabolic processes. SeaTru (Ascophyllum Nodosum Extract) improves soil microbial activity. Improves root growth and seed germination.

DIRECTIONS FOR USE *(Shake well before using)*

Apply as a foliar spray application on all turf grasses. Apply anytime during the growing season, especially ahead of increasing air temperatures or drought-like conditions. Seaweed Supplement is most effective as part of a sound fertility program. Multiple applications enhance performance of this product.

Applying Using a Spray Tank

Mix 6 ounces of product with one gallon of water and apply at the rate of one gallon mix per 1,000 sq ft.

Applying Using a Hose-End Sprayer

- Use yellow (60:1) hose-end sprayer.
- Fill with 32 oz of Seaweed Supplement.
- Attach to hose while the sprayer is in the "off" position. Turn the water on.
- Once you are in the area you intend to apply product, turn the spray head attachment to "on." Spray evenly while walking at a steady pace (about 3 mph) moving the nozzle side to side to cover an area of approximately 6 ft wide. Coverage may vary based on walking speed and water pressure. One 32 oz bottle should treat up to 5,000-6,000 sq ft.

STORAGE AND USE

Store in a cool dry place. Do not store in temperatures above 95°. Keep from freezing. Use product within 12 months of purchase.
