PET SÄFE*

28-0-6 FERTILIZER

PROFESSIONAL-GRADE LAWN FERTILIZER

WITH DISPERSING GRANULE TECHNOLOGY
AND SLOW-RELEASE NITROGEN FOR
EXTENDED FEEDING

Builds a thick, green lawn

**Dissolves quickly into roots
upon watering**

**Safe to walk on immediately
after watered in**

*When used as directed. Not safe for consumption by pets or children.

NET WT. 30.00 LBS (13.6 KG) • COVERS 10,000 SQ. FT.

PET SAFE 28-0-6

What makes Pet Safe fertilizer safe for my pets?

Made with The Andersons patented DG Technology, Pet Safe particles dissolve into millions of micro-particles when exposed to water, sending the fertilizer directly to your lawn's root zone and away from paws and feet. This means you don't have to worry about kids and pets staying off of the yard for a period of time following a fertilizer application. Just apply, water, and play! Your lawn is safe to walk on immediately after the product is watered in.

DIRECTIONS FOR USE

SPREAD PRODUCT

Using a clean, properly adjusted spreader, apply the material evenly. A drop-type or broadcast-type spreader may be used.

- Apply this product at 3 pounds per 1,000 sq. ft. on cool or warm season grasses.
- Avoid skipping areas.
- Apply when grass is dry so that granules will not stick to leaves and will fall down to soil area.
- Do not apply when grass is under stress due to heat or lack of moisture.
- DO NOT HAND SPREAD.

WATER IN

After application, water in thoroughly with at least 0.2 inch of water (typically 15-20 minutes). Watering in this product will disperse each granule into thousands of particles and move the particles into the root zone. This particle dispersion will eliminate paw and shoe pickup.

PLAY

After watering in, it is safe for your pets and children to resume activities in the yard.

SPREADER SETTINGS

SPREADER MODEL	RATE 3.0 lbs/1,000 sq. ft.
The Andersons Pacer Pro	9
