

SIMPLIFY AERIFICATION FERTILITY WITH GENESIS RX®

	TWO WEEKS PRIOR TO AERIFICATION	AERIFICATION	FOLLOWING AERIFICATION
GOOD 1 PRODUCT 1 APPLICATION			GENESIS RX® 3-4-3 ZEOLITE PLUS 30 lbs./1000 ft ²
BETTER 1 PRODUCT 2 APPLICATIONS	GENESIS RX® 5-7-5 7.5 lbs./1000 ft ²		GENESIS RX® 5-7-5 7.5 lbs./1000 ft ²
BEST 2 PRODUCTS 2 APPLICATIONS	GENESIS RX® 5-7-5 10 lbs./1000 ft ²		GENESIS RX® 3-4-3 ZEOLITE PLUS 10 lbs./1000 ft ²

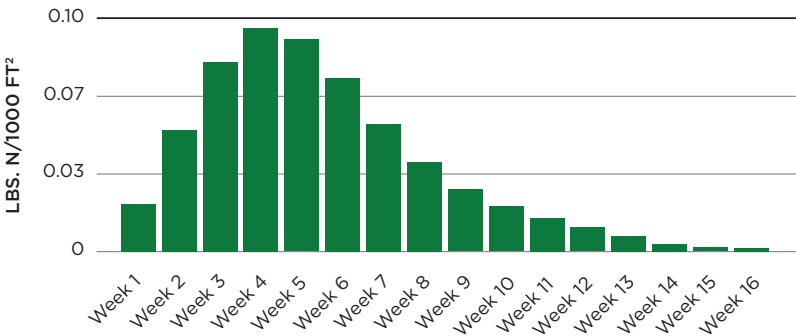

Applying fertilizer before, during and after mechanical aerification all provide unique options for ensuring your turf recovers quickly. The Genesis Rx line of products is designed to help you determine the right fertility approach for your aerification program. These blends represent the most comprehensive fertilizers we have ever produced, offering single-product solutions designed to simplify aerification fertility and accelerate turfgrass recovery.

WHAT'S IN THE BAG?

Genesis Rx 5-7-5 and Genesis Rx 3-4-3 Zeolite Plus provide balanced NPK, secondary and micronutrients, and soil-enriching humic acid, along with many Dispersing Granule (DG) components. This unmatched combination provides turfgrass with the nutrition needed for rapid recovery from aerification stress, along with sustained feeding. Genesis Rx 3-4-3 Zeolite Plus also includes zeolite granules and more than two dozen beneficial soil microorganisms, helping to raise CEC levels, amend soil, promote root growth, and improve nutrient availability.

TURFGRASS RESPONSE TO GENESIS RX® 5-7-5 AND GENESIS RX® 3-4-3 ZEOLITE PLUS

In this example, 10.0 lbs of Genesis Rx 5-7-5 were applied at Week 1 then 10.0 lbs of Genesis Rx 3-4-3 Zeolite Plus were applied at Week 3.

**This program is intended to serve as an example and may vary due to geography and specific management goals. Please consult the TNT or your Territory Manager from The Andersons with any questions. Always read and follow label directions.*
