APPLY AT SEEDING

GOOD	21-22-4 with Mesotrione (4.3 lbs/1000 ft²)
BETTER	21-22-4 with Mesotrione (4.3 lbs/1000 ft²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft²)
BEST	21-22-4 with Mesotrione (4.3 lbs/1000 ft²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft²) RejuvaSoil (5.0 lbs/1000 ft²)

21-22-4 WITH MESOTRIONE

- Controls grassy and broadleaf weeds
- Ideal for seeding, sodding, sprigging, plugging, and overseeding
- Smaller particle size with controlled-release nitrogen for enhanced coverage and steady feeding

3-2-1 WITH HYDRA CHARGE™

- Biosolid fertilizer with dual-action surfactant
- Combines soil wetting and water-distributing surfactants
- Features quick- and slow-release nitrogen plus iron for added greening and to help prevent localized dry spots and sustain turfgrass performance

REJUVASOIL™

- All-natural soil amendment
- Contains humic acid, biochar, and a beneficial microbial package
- Increases soil microbial populations, adds organic matter to soil, and improves nutrient efficiency

BETTER	9-12-6 with HCU (6.0 lbs/1000 ft ²) 3-2-1 with Hydra Charge (10 lbs/1000 ft ²)	9-12-6 with HCU (6.0 lbs/1000 ft ²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft ²)	9-12-6 with HCU (6.0 lbs/1000 ft ²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft ²)	
BEST	9-12-6 with HCU (6.0 lbs/1000 ft ²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft ²)	9-12-6 with HCU (6.0 lbs/1000 ft ²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft ²)	9-12-6 with HCU (6.0 lbs/1000 ft ²) 3-2-1 with Hydra Charge (10.0 lbs/1000 ft ²)	22-0-4 with HCU (4.0 lbs/1000 ft ²)

9-12-6 WITH HCU®

- Contains Humic Coated Urea and Black Gypsum DG® for nitrogen, humic acid, carbon, calcium, and sulfur
- Includes MAP and SmartPhos® DG for quick- and slow-release phosphorus
- Provides balanced nutrition for soil health and turf performance

3-2-1 WITH HYDRA CHARGE™

- Biosolid fertilizer with dual-action surfactant
- Combines soil wetting and water-distributing surfactants
- Features quick- and slow-release nitrogen plus iron for added greening and to help prevent localized dry spots and sustain turfgrass performance

22-0-4 WITH HCU®

- 50% Humic Coated Urea and Black Gypsum DG® for nitrogen, humic acid, carbon, calcium, and sulfur
- Gypsum supplies secondary nutrients: calcium and sulfur
- Helps relieve soil salinity and compaction
