

INSECTICIDES

GRUBOUT® DG

- Controls early nymph stages of mole crickets
- Ideal for white grub control
- Ideal for control of listed subsurface pests
- Features Dispersing Granule (DG) Technology

PRODUCT CODE 10005682

PRODUCT USES Broadcast applications on golf courses, sports fields, residential lawns, commercial lawns, ornamentals, sod farms, nursery and specialty crops

APPLICATION 3.0-4.5 lbs/1000 sq ft

PACKAGING 40-lb bags; 50 bags/pallet

ACTIVE INGREDIENT

Imidacloprid†.....0.20%

OTHER INGREDIENTS 99.80%

Total.....100.00%

† CAS No. 138261-41-3

Product	Active Ingredient	SGN	Curative or Preventative	Feature	Nitrogen Source
GrubOut DG	0.2% Imidacloprid	Fairway	Preventative	Targets white grubs on DG Pro dispersible carrier	-
15-0-4 Grubout	0.2% Imidacloprid	Standard	Preventative	Targets white grubs	25% Fortify-N*
21-0-4 GrubOut	0.2% Imidacloprid	Standard	Preventative	Targets white grubs	50% Fortify-N*
0-0-7 GrubOut	0.2% Imidacloprid	Standard	Preventative	Targets white grubs	-
17-0-3 GrubOut Plus	0.2% Imidacloprid 0.04 % Lambda-cyhalothrin	Standard	Curative and Preventative	Prevents grubs while controlling surface insects with a quick knockdown	50% Fortify-N*
21-0-5 GrubOut XL	0.067% Chlorantraniliprole	Standard	Preventative and Early Curative	Longer residual, reduced-risk to pollinators	50% NS-54**
16-0-6 GrubOutXL	0.067% Chlorantraniliprole	Standard	Preventative and Early Curative	Longer residual, reduced-risk to pollinators	50% Fortify-N*
18-0-12 GrubOut XL	0.067% Chlorantraniliprole	Fairway	Preventative and Early Curative	Longer residual, reduced-risk to pollinators	80% MUTech***

*Fortify-N uses dual nitrogen stabilizers to improve nitrogen efficiency and reduce losses from volatilization, leaching, and denitrification, providing a consistent 5-7 week release.

**NS-54 is a polymer- and sulfur-coated nitrogen source with an advanced coating that delivers a higher nitrogen content than traditional PCSCU and a reliable 5-7 week release.

***MUTech releases nutrients based on environmental conditions, minimizing leaching and burn risk with a low salt index, while offering an extended 20-week release.
