

MICRONUTRIENT SUPPLEMENT

FOR LAWNS

Prevent Micronutrient
Deficiencies

Use as Supplement to
Existing Feeding Program

For Use on
All Turf Types

NET WT. 18.00 LBS (8.16 KG) • COVERS 6,000 SQ. FT.

MICRONUTRIENT SUPPLEMENT

Micronutrient Supplement is a professional-grade lawn nutrient booster formulated with a fine granular particle size for superior coverage and even distribution across your turf. It delivers a balanced blend of essential micronutrients—including magnesium, sulfur, iron, manganese, zinc, and copper—to prevent and correct nutrient deficiencies that can lead to yellowing or weak growth. Designed to supplement your existing feeding program, Micronutrient Supplement enhances overall turf health and promotes a deeper, more vibrant green. This versatile supplement is safe for use on all turf types and integrates seamlessly into routine lawn care applications. For best results, apply every 4-8 weeks.

DIRECTIONS FOR USE

SPREAD PRODUCT

Fill and adjust your spreader to the recommended rate using the spreader settings table to the right. For even application, be sure to walk at a steady rate, slightly overlapping each pass.

Apply product to dry foliage. Apply only to actively growing turf. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

IMPORTANT! CLEAN-UP

This product contains micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. DO NOT WASH WITH WATER.

WATER IN

To help move the particles into soil more quickly, water with a minimum of 0.2 inches.

STORAGE

Store left over product in a clean, dry place. Reseal opened bag by folding top down and securing. Product clumping may occur when the bag sets for a period of time. Clumps are easily broken up by dropping the bag to the ground several times before opening.

SPREADER SETTINGS

This bag is designed to deliver 3.0 lbs of product per 1,000 sq. ft., for a total coverage of 6,000 sq. ft. Settings are based on an average walking speed of 3 mph. Reduce setting for a lower speed; raise setting for a higher speed.

SPREADER MODEL	RATE 3.0 lbs/1,000 sq. ft.
