

# UltraMate SG™

**0-0-14**

**GUARANTEED ANALYSIS**

Soluble Potash (K <sub>2</sub> O) .....	14.00%
Sulfur (S) .....	6.00%
6.00% Combined Sulfur (S)	

Derived from potassium hydroxide and potassium sulfate

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

**ALSO CONTAINS NON-PLANT FOOD INGREDIENT**

Soil Amending Ingredients

**ACTIVE INGREDIENTS**

Humic Acids (derived from leonardite) .....	70.00%
---------------------------------------------	--------

**INERT INGREDIENTS**

Total Other Ingredients (from fertilizer materials) .....	30.00%
-----------------------------------------------------------	--------

**F002091**

**Florida Applications:**

We recommend that you follow the Florida Green Industries BMP's at:

**PRODUCT INFORMATION:** UltraMate SG is a sulfonated potassium humate granule, which is soluble over a wide pH range of 2.0 to 12.0. UltraMate SG completely dissolves when added directly to liquid fertilizer, micronutrient or pesticide formulations over a wide range of pH values. It allows the user to apply this humate directly into tank mix, drip irrigation and onto acid soil applications unacceptable for conventional products. UltraMate SG provides a concentrated granule that provides flexibility of dry or liquid application, and avoids unnecessary cost of shipping water as compared to liquid humate products. UltraMate SG also allows the user to avoid handling powder and dusty material and the related issues.

**DIRECTIONS FOR USE:** Use only as directed. UltraMate SG can be applied to all crops including fruits, vegetables, trees, vines, flowers, ornamentals, turf, (including lawns, sod farms, commercial properties, athletic fields, golf greens, tees and fairways) grain and other row crops, greenhouse plants and other indoor crops. Application rates and frequency are dependent upon soil and climate conditions present. Typical application rates range from 1/2 to 3 pounds of UltraMate SG per acre per application (up to 11 pounds per growing season).

UltraMate SG may be applied as a granule, alone as a liquid or with liquid fertilizers. It may also be applied through conventional methods but not limited to foliar spray, soil application, drip irrigation, water run or hydroponically. UltraMate SG is not compatible with glyphosate concentrate, but will work with the tank mixes containing glyphosate.

UltraMate SG is best mixed under continuous, mild agitation or circulation and must be added to spray tanks slowly (poured not dumped). When the solution is thoroughly mixed beyond disappearance of granules, it is always good practice to probe the bottom of the vessel for any un-dissolved granules prior to application. When tank mixing with other ingredients, always start with water, UltraMate SG, followed by (in order) fertilizer, herbicide, fungicide, insecticides.

Compatibility can be simply checked by:

- Mixing each product in a clear container in the same proportion to be used in the field
- Agitating for at least 60 seconds
- Visually observing for precipitate

Apply only to actively growing turf. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

**FIRST AID MEASURES:**

If inhaled: Move to fresh air and keep comfortable, seek medical attention if unwell.

If on skin: Wash affected areas with soap and water. Seek medical attention if irritation persists. Wash contaminated clothing before reuse.

If in the eyes: Immediately flush with water for 15-20 minutes, seek medical attention if irritation persists.

If swallowed: Rinse mouth. DO NOT INDUCE VOMITING unless directed by a medical professional. Seek medical attention if unwell.

**IMPORTANT: READ BEFORE USE:** Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty Disclaimer and Limitation of Liability:

**WARRANTY DISCLAIMER and LIMITATION of LIABILITY:** Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions. Manufacturer makes NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. To the extent consistent with applicable law, it is Manufacturer's intent to LIMIT ANY LIABILITY FOR SPECIAL, CONSEQUENTIAL OR INCIDENTAL ECONOMIC DAMAGES to refund of purchase price or replacement of product, at Buyer's choice. To the extent consistent with applicable law, Manufacturer DISCLAIMS ANY LIABILITY FOR COMPENSATORY OR OTHER DAMAGES ARISING OUT OF ANY USE CONTRARY TO LABEL DIRECTIONS.

**LEGAL RIGHTS:** THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS; YOU MAY HAVE OTHER RIGHTS THAT VARY FROM STATE/JURISDICTION TO STATE/JURISDICTION
