16-4-8 FERTILIZER WITH HUMIC DG™

PGF Complete 16-4-8 professional-grade fertilizer contains micronutrients, iron for super-deep greening, and Humic DG for soil health. The 16-4-8 formula is balanced to the ideal 4-1-2 ratio of nitrogen, phosphorus, and potassium. PGF Complete's fine particle size ensures a more even distribution of nutrients.

- Beneficial for all turf types and can be applied at any time during the growing season
- Includes quick and slow-release nitrogen sources for fast results and continual feeding for up to 8 weeks
- Features DG Technology, allowing granules to break into thousands of microparticles that penetrate the root zone

DIRECTIONS FOR USE

SPREAD PRODUCT

Apply product to dry foliage. Fill and adjust your spreader to the recommended rate using the spreader settings table to the right. For even application, be sure to walk at a steady rate, slightly overlapping each pass.

CLEAN-UP

Sweep any product on driveways and sidewalks back onto your lawn. Return any unused material back into the original package.

WATER IN

To activate DG Technology and help move the particles into soil immediately, water in with a minimum of 0.2 inches

STORAGE

Store left over product in a clean, dry place. Reseal opened bag by folding top down and securing.

PRO TIPS

- Mow before applying
- Do not apply prior to heavy rainfall to avoid particles getting washed away
- Do not collect clippings for a least one mowing to avoid particle pick-up
- Reapply every 6-8 weeks during the growing season

SPREADER SETTINGS

Note: This product contains micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. DO NOT WASH OFF WITH WATER.

Phosphate Notice (for states with phosphorus regulations): This lawn fertilizer contains phosphorus and is only for nonagricultural use on (i) turf during its first growing season, (ii) on turf areas being repaired or renovated, and (iii) on turf where a soil test performed within the last 3 years indicates a phosphorus deficiency. This fertilizer is not for routine maintenance of turf.

In Maryland, this product is providing nutrients in accordance with a soil test that was conducted by a laboratory identified under 8-803.7 of this article and performed no more than 3 years before the application.

Apply only to actively growing turf. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.
