## **DIRECTIONS FOR USE**

Shake bottle of Iron Drip before use. Attach the sprayer head attachment to a garden hose. Ensure sprayer head attachment is set to "off" and turn on the water.

Once you are in the area you intend to apply product, turn the spray head attachment to "on." Spray evenly while walking at a steady pace (about 3 mph), moving the nozzle side to side to cover an area of approximately 6 ft wide. Coverage may vary based on walking speed and water pressure. One bottle should treat up to 5,000 sq. ft.

When finished with application, position the sprayer head attachment to "off" and disconnect sprayer from hose.

For best results, apply every 2-4 weeks.

For complete application instructions, refer to subsequent pages.
